## DETAILED ACTION

### *Claim Rejections - 35 USC § 112*

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 15-18 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In claims 15 and 16: line 1, it is not clear whether the “manually coupling” recited is a **further step**, since this step is not seen recited in either claim 7 or claim 1.

Similarly, in claim 17, line 3, again “manually coupling” is seen recited. Is it a **further step**?

Claim 18, depending from claim 17, inherits the indefiniteness thereof.

### **Minor informalities noted in the claims**

In claim 1: line 9, “alighment” should be – alignment --.

In claim 4: line 4, after “material”, “,” should be -- ; --.

In claim 13: line 10, at the end of the line, “alighment” should be – alignment --.

In claim 19: line 4, after “;”, -- and – should be inserted.

In claim 22: line 2, after “wherein”, -- the – should be inserted.

### **Allowable Subject Matter**

Claims 1-14 and 19-30 are allowed.

Art Unit: \*\*\*

Claims 15-18 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.

The references cited fail to teach or fairly suggest the limitations as noted in the broadest independent claim 19, in which the two alignment holes are within the packaging material surrounding the periphery of the lens array.
